State Data Center Overview

State Data Centers

- Partnership between U.S. Census Bureau and states
- Created in 1978
- Make data available locally to the public
- Access
- Education

State Data Centers

- Data dissemination
- Data research and analysis
- Promotion of Census Bureau products
- Training and education
- Assistance and feedback
- SDC Network

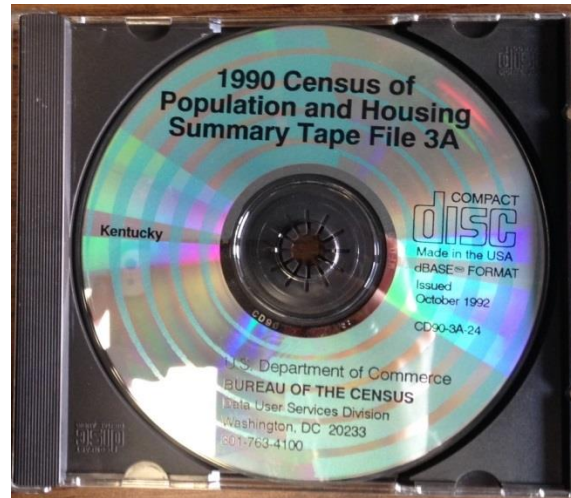

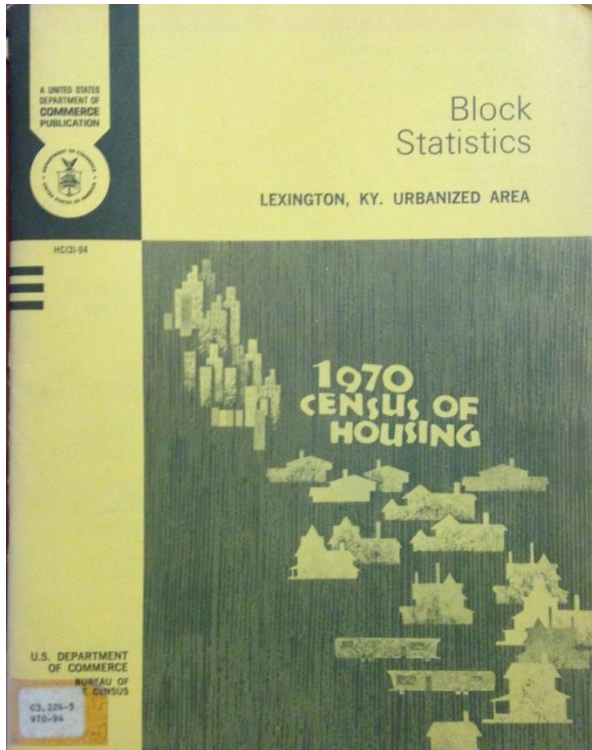

State Data Center Network

- Affiliate Network of data users throughout the state
- State government, universities, research centers, ADDs, libraries
- Data dissemination at the very local level

Annual Affiliates Meeting

- Affiliate Network of data users throughout the state
- Recent and upcoming data releases and data access tools
- Early August

State Data Center Services

Dissemination
Access
Education

State Data Center Services

- Original research
- Original data products
 - Population projections for state, counties, ADDs
 - Normalized tract boundaries
- Vital events
- Sponsored projects
 - Data websites
 - Planning efforts

State Data Center Staff

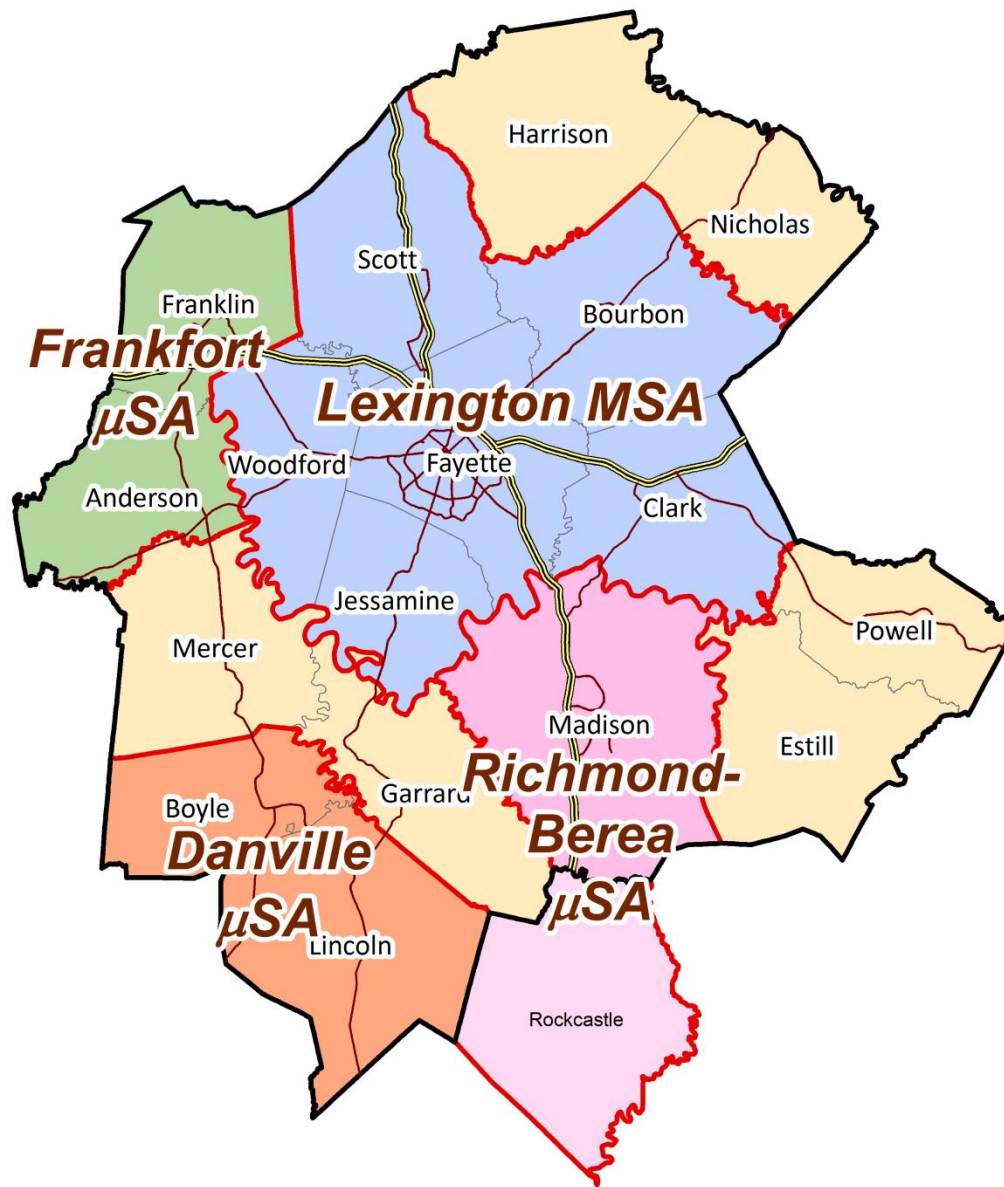

- Recent retirements – Ron, Vernon, Michael
- Matt Ruther, PhD – Director
- Tom Sawyer – Research Manager
- Sarah Ehresman – Research Coordinator

KSDC Website

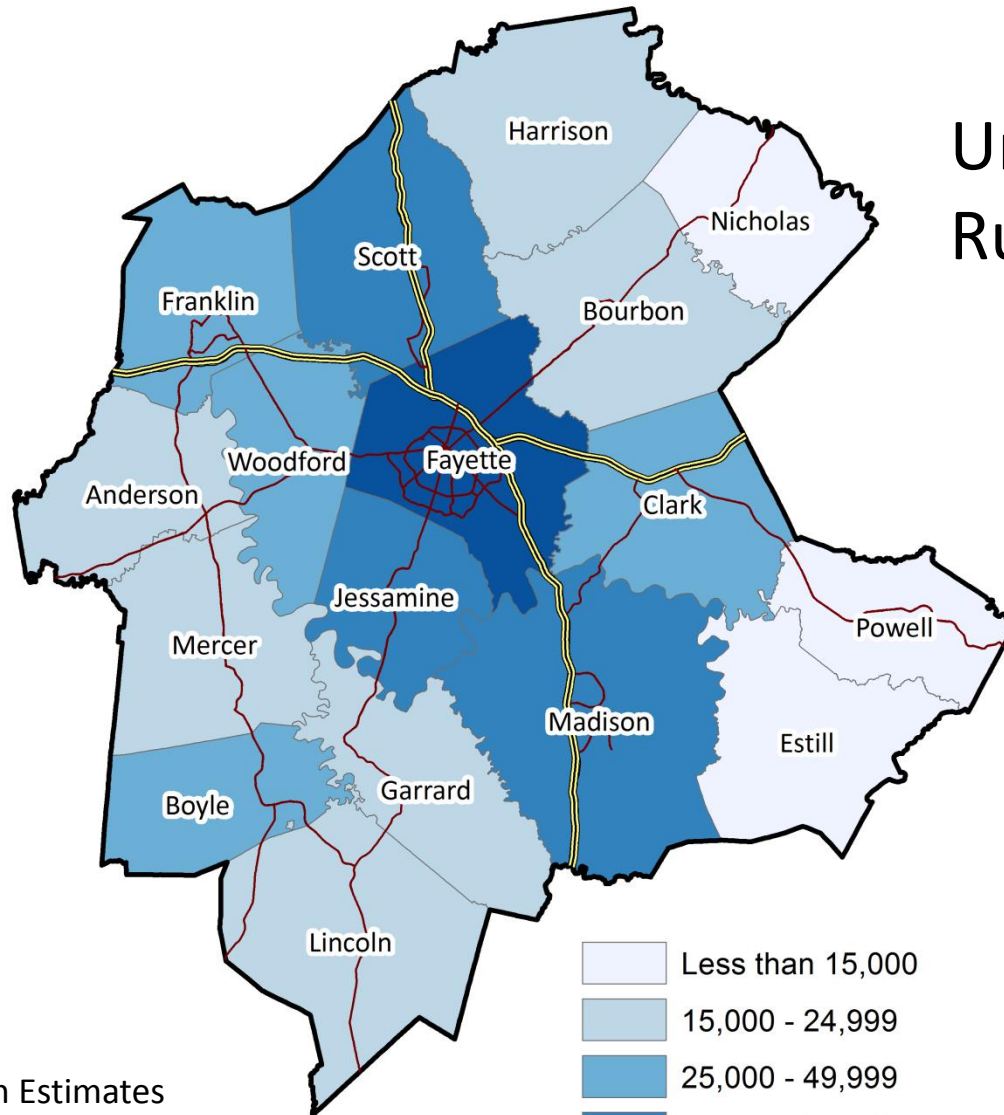

- <http://ksdc.louisville.edu>
- Remodeling in progress – summer release
- Data Portal model
 - Access and education
- Data request link

BGADD Overview
