

FISHERVILLE NEIGHBORHOOD PROFILE

July 2017

Prepared in Partnership Between the
Kentucky State Data Center
at the University of Louisville
and Metro United Way

0 1 2 4 Miles

 2010 Census Tracts used to Approximate Neighborhood

This data profile uses 2010 census tract boundaries to approximate neighborhoods within Jefferson County. Census tracts are statistical units used to publish data for small areas, delineated after each Decennial Census. Areas of Jefferson County that are outside of the former city of Louisville and were not recognized as a Census Designated Place in the 2000 Census have been defined by groups of census tracts, and named after a prominent road or feature in the area.

Unless otherwise noted, the data in this profile reflects the five year time period from the beginning of 2011 through the end of 2015.

POPULATION CHARACTERISTICS

Age and Sex

Data Source: U.S. Census Bureau, 2011-2015 American Community Survey

An **unemployed** person is someone who does not have a job, but is actively looking for a job and is available for work. The unemployment rate is calculated as the number of unemployed persons in an age group divided by the sum of the number of employed and unemployed persons in that age group.

A person who is **not in the labor force** is someone who does not have a job, and is not looking for one. This includes students, retirees, those taking care of children or other family members, and others who are neither working nor seeking work. The rate of labor force participation is calculated as the number of persons not in the labor force in an age group divided by the population in that age group.

Data Source: U.S. Census Bureau, Longitudinal Employer-Household Dynamics Origin-Destination Employment Statistics (LODES)

Note: The workplace is based on the address of administrative records, and may or may not be the actual location that a worker reports to most often. In the original data, all Jefferson County Public School (JCPS) employees were reported as working at the location of the JCPS administrative headquarters. Data provided by JCPS was used to allocate employees to the physical location they work at. JCPS is the only institution that was adjusted from the original data.

Percentages may not sum to 100 due to rounding.

Indicates resides school for Fisherville students

At the elementary school level, students are assigned to a cluster based on their home address, and given the option to choose from several schools within the assigned cluster. One of the options within each elementary cluster is a neighborhood school, called the “resides” school.

At the middle and high school level, students are assigned to a school based on their home address, which may or may not be a neighborhood school.

HOUSING CHARACTERISTICS

Housing Cost Burden

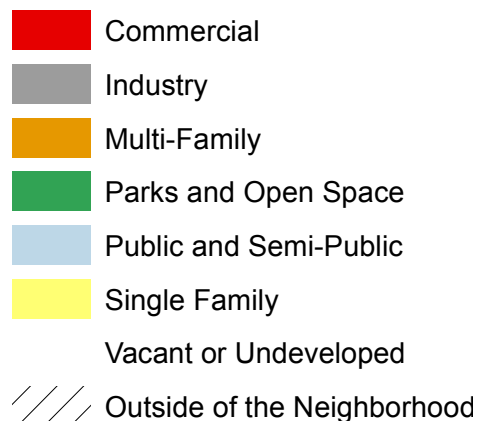

According to the U.S. Department of Housing and Urban Development, households that spend more than 30% of their income on housing are considered cost burdened and may have difficulty affording necessities such as food, transportation, and medical care.

	Fisherville		Jefferson County	
	Estimate	Percent	Estimate	Percent
Renters paying 30% or more of income on housing costs	95	29%	52,192	48%
Owners paying 30% or more of income on housing costs	653	26%	40,139	21%

Note: Housing costs as a percentage of income is only calculated for households that pay rent and report income.

Data Source: U.S. Census Bureau, 2011-2015 American Community Survey

	Fisherville		Jefferson County	
	Estimate	Percent	Estimate	Percent
Population with a disability	690	10%	108,054	14%

Data Source: U.S. Census Bureau, 2011-2015 American Community Survey

Food Access (2015)

	Fisherville		Jefferson County	
	Estimate	Percent	Estimate	Percent
Population who are low income and do not live close to a grocery store	880	12%	37,089	5%
Census tracts designated a food desert	0	-	13	-

Note: Population who are low income is defined as living at or below 200 percent of the federal poverty line. Not living close to a grocery store is defined as living further than one mile from a full service grocery store.

Food deserts are defined at the census tract level, when the tract is considered low income and low access. A tract is considered low income if the tract's poverty rate is 20% or greater, or if the tract has a median family income less than or equal to 80% of the metropolitan area's median family income. A census tract is considered to have low access if a significant number (at least 500 people) or share (at least 33%) of individuals in the tract is greater than one mile from the nearest grocery store.

Data Source: U.S. Department of Agriculture, Food Access Research Atlas

HEALTH CHARACTERISTICS

Violent Crime (2016)

	Fisherville	Jefferson County
Number of violent crimes	5	4,534
Violent crime rate per 100,000 population	70	600

Data Source: Louisville Metro Police Department

Note: This data only reflects crime reported to Louisville Metro Police, and excludes any violent incidences reported to the other policing agencies with jurisdiction in Jefferson County.

Violent crime is defined as cases of reported homicide, rape, robbery, and aggravated assault within the Part 1 Uniform Crime Report (UCR) hierarchy.

Birth Measures

	Fisherville	Jefferson County
Births to mothers who smoked during pregnancy	7%	12%
Births to mothers without a high school degree	4%	15%
Births to unmarried mothers	26%	47%
Low birthweight births	7%	9%
Teen birth rate per 1,000 women age 15-19	12	33

Premature Death

	Fisherville	Jefferson County
Years of potential life lost before age 75 per 100,000 population (age-adjusted)	5,151	8,229

Data Source: Kentucky Cabinet for Health and Family Services Department of Public Health

HEALTH CHARACTERISTICS

Drug Overdose Mortality

The age-adjusted rate of drug overdose deaths in Jefferson County was 24 deaths per 100,000 standard population.

Due to the small number of observations, a drug overdose mortality rate was not calculated for individual neighborhoods.

Infant Mortality

For every 1,000 live births in Jefferson County there were 7 infant deaths.

Due to the small number of observations, an infant mortality rate was not calculated for individual neighborhoods.

Data Source: Kentucky Cabinet for Health and Family Services Department of Public Health
